

Zebra Family of Card Printers

Zebra card products provide businesses enhanced security, increased productivity, improved quality, lower costs and better customer service. Choose from a broad range of full color or monochrome card printers. Options range from Ethernet connectivity, smart card and magnetic stripe encoding, and UHF Gen 2 RFID encoding, to lamination for higher security and card durability. There is a Zebra card printer to meet all your business needs.

Direct to Card Printing

Zebra's Value class, Performance class, and Security class card printers print directly to plastic cards using dye sublimation and/or thermal transfer printing. With thermal transfer printing, ink from a ribbon is heated and transferred directly onto the surface of a plastic card. With dye sublimation, heat vaporizes the ribbon dye, which then permeates the plastic card. Both print methods allow for color or monochromatic printing.

Retransfer Printing

Unlike direct to card printing, retransfer printers print onto a flexible, transparent film that is then thermally bonded to the card. This print method is ideal for printing on uneven card surfaces, such as smart cards, or for when the application calls for very high image quality or cards that are more durable and abrasion resistant.

In more than 90 countries, Zebra® card printers produce over 1.5 million identification cards every business day. Card after card, Zebra printers deliver reliable performance and excellent print quality.

Zebra Card Printer Family

VALUE CLASS

The perfect blend of quality, function and affordability, Zebra's Value class card printers are ideal for low-volume card printing in a variety of applications. With their space-saving design, they are a perfect fit for counters and desktops.

PERFORMANCE CLASS

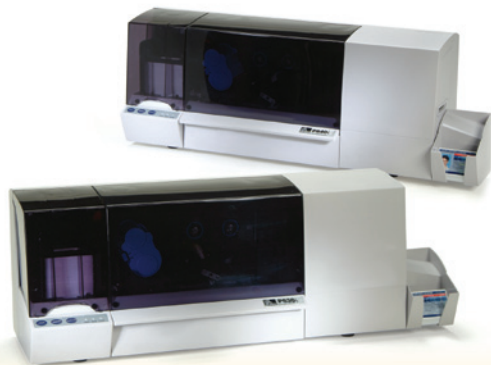

Zebra Performance class card printers set the standard for print quality, reliability and ease of use. They're the perfect solution for demanding businesses that need performance, quality and a broad set of options to meet growing business needs.

	VALUE CLASS	PERFORMANCE CLASS
Models	<ul style="list-style-type: none"> • P100i™, color, 1-sided/single feed • P110i™, color, 1-sided • P110m™, monochrome, 1-sided • P120i™, color, 2-sided 	<ul style="list-style-type: none"> • P330i™, color, 1-sided • P330m™, monochrome, 1-sided • P430i™, color, 2-sided
Print Speed	<ul style="list-style-type: none"> • P100i—35 seconds per card • P110i—30 seconds per card • P110m—7.2 seconds per card • P120i—40 seconds per card 	<ul style="list-style-type: none"> • P330i—144 cards/hour • P330m—692 cards/hour • P430i—102 cards/hour
Standard Features	<ul style="list-style-type: none"> • Compact footprint • Plug-and-play USB connectivity • Load-N-Go™ drop-in ribbon cartridge • i Series™ intelligent ribbon • User-friendly LCD display • Two-year printer and printhead warranty 	<ul style="list-style-type: none"> • Plug-and-play USB connectivity • i Series intelligent ribbon • User-friendly 16-character LCD display • 100 card input/output capacity (30 mil) • Bi-directional driver communication • Two-year printer and printhead warranty
Optional Features	<ul style="list-style-type: none"> • Magnetic stripe encoder • 10/100 Ethernet connectivity • Smart card contact encoder (P100i only) • MIFARE® contactless encoder (P100i only) • CardSense™ single-card feed (standard on P100i) 	<ul style="list-style-type: none"> • Magnetic stripe encoder • 10/100 Ethernet connectivity • Gen 2 UHF RFID (P330i and P430i) • Smart card contact encoder • MIFARE contactless encoder (P330i and P430i) • High capacity card feeder (220 cards, 30 mil) • Smart card contact station (30 mil card only)

SECURITY CLASS

Count on Zebra Security class card printers to develop highly secure and durable ID cards. With security a leading business concern, choose the best in card printing solutions to ensure important information is protected and access control is maximized.

- P630i™—color, 2-sided print, 1-sided lamination
- P640i™—color, 2-sided print, 2-sided lamination

- P630i—120 cards/hour
- P640i—120 cards/hour

- USB connectivity
- Linerless and waste-free lamination
- i Series intelligent ribbons and laminates
- Micro-positioning card transport system
- Covert text print capability
- 150 card input hopper (30 mil)
- One-year printer and printhead warranty

- 10/100 Ethernet connectivity
- Smart card contact encoder
- Linear bar code reader
- ID/key security printing feature
- Magnetic stripe encoder
- Smart card contact station
- UHF Gen 2 RFID encoder
- One-year printer and printhead warranty

- Government-issued driver licensing
- High security access control and ID cards
- Government employee ID cards
- Secure airport ID cards
- Law enforcement/correctional facility ID cards
- National ID and voter registration cards

RETRANSFER CLASS

Delivering best-in-class throughput and unparalleled print speed, the innovative ZXP Series 8™ retransfer card printer creates vivid color plastic cards on-demand fast. Increase operational efficiency without sacrificing image quality thanks to Zebra's patent-pending simultaneous dual-sided image transfer process.

- ZXP Series 8 1-sided print
- ZXP Series 8 2-sided print
- ZXP Series 8 2-sided print/1-sided lamination
- ZXP Series 8 2-sided print/2-sided lamination

- 1-sided—190 cards/hour
- 2-sided—180 cards/hour
- 2-sided print/1-sided lamination—180 cards/hour
- 2-sided printing/2-sided lamination—180 cards/hour

- USB and 10/100 Ethernet connectivity
- i Series intelligent media technology
- Over-the-edge reverse transfer printing
- ZMotif™ XML standards-based platform
- Single-card feed capability
- Two-year printer, lifetime printhead warranty
- 150 card input hopper (30 mil)

- Smart card contact station
- Magnetic stripe encoder
- Combined MIFARE and contact encoder
- Lockable enclosure/card feeder

- Employee ID and access control cards
- Government-issued driver licensing
- High security ID and access control cards
- Instant issuance bank cards
- Personalized gift cards
- National ID and voter registration cards

Ideal For

Insist on the Best— Genuine Zebra™ Supplies

Print Ribbons and Retransfer Film

Zebra's True Colours® print ribbons and transfer film deliver consistent, high-quality color reproduction for vibrant color photos, true-to-life flesh tones, and sharp monochrome resin bar codes and text.

Overlays & Laminates

Zebra's True Secure™ secure varnish overlays and laminates are designed to combat card counterfeiting, alteration and duplication. These protective materials prolong card life by preventing image fading and dye-migration, and create a more durable card. They can also deter card forgery with the use of lamination security features.

Plastic Cards

Zebra's quality plastic cards enhance the print quality and image sharpness needed for vivid colors and detailed readable bar codes. Zebra guarantees its pure PVC and composite PVC cards to be ISO compliant and dust-free, and to have smooth edges. For more secure applications, Zebra offers cards with tamper-resistant and security features.

Cleaning Supplies

Zebra offers a full line of cleaning supplies to properly maintain printer performance, extend card printer life, and yield better quality card images.

Genuine Zebra Supplies

Genuine Zebra supplies meet stringent quality standards and are recommended for optimal printing quality and proper printer performance. Zebra printers are designed to work only with Zebra True Colours i Series ribbons, Zebra True Colours i Series transfer film and Zebra True Secure i Series laminates.

* Based on average print coverage per card.
