BENEFIT FROM THE POWER OF SELF-SERVICE

ZEBRA FAMILY OF MICRO KIOSKS

Micro Kiosk family

TAKE SELF-SERVICE TO A NEW LEVEL

Reinvent the self-service experience with our family of micro kiosks, enabling on-demand access to simple or complex information and engaging applications that enhance every user's experience. Designed to fit anywhere in your store or facility, each kiosk offers a combination of power and flexibility to handle all kinds of applications for customers and employees. More than just a retail solution, our kiosks are ideal for airports, car rental offices, stadiums, theme parks, hotels and even hospitals and health clinics—virtually anywhere self-service transactions will improve peoples' experiences.

The Zebra Micro Kiosk family

Whichever micro kiosk you choose, customers will appreciate an enhanced self-service experience, while employees will become more efficient.

MK500 MICRO KIOSK

Put the power of self-service in every aisle

Improve your customers' experience on any budget with Zebra's MK500 Micro Kiosk. This compact, easy-to-install, affordable device puts the power of self-service in every aisle or department. Customers can check price and inventory, check the balance on a gift card, look up a loyalty point balance, determine the location of a product and call for assistance — all with the scan of a bar code or press of a button or touchpad. And the MK500 easily connects to third-party printers. Customer help is never more than a few steps away.

MK500 Micro Kiosk
Ideal for basic customer self-service options, such as a price check and basic advertising

MK4000 MICRO KIOSK

The most versatile and powerful self-service experience

This micro kiosk features Zebra's world renowned bar code scanning technology and the largest SVGA touchscreen display at 12.1". The MK4000 is built to handle a complete range of sophisticated self-service applications for customers, patients and employees in any environment, such as interactive product catalogs and gift registries, employee training modules, task management and scheduling. With a cost-effective connection to back-end systems and three USB ports for customization, this versatile device takes self-service to the next level and helps ensure a rapid return on investment.

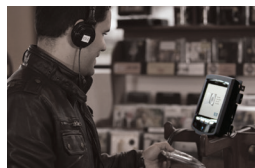

MK4000 Micro Kiosk
Ideal for very robust applications in any industry

MK3100 MICRO KIOSK

Everything you need for a richer experience

The mid-size MK3100 features an 8" WVGA display and has all the features needed to support rich self-service options for customers and employees, as well as digital advertising. The larger screen size lends itself to a fuller end user experience for applications that require a more sophisticated interaction than our basic micro kiosk. In addition to customer-facing applications, the MK3100 supports employee tools, such as a time clock.
