Do not use the product while driving. Be sure to observe traffic related laws as otherwise, it may cause a car accident.

Be sure to carefully read this user manual, as not observing the cautions may cause injury of the user or other persons, or damage to property.

The manufacturer and seller do not take any responsibilities for any the accidents occurred due to not observing the cautions specified in this manual.

This product should be used only for the established purpose. Do not use the product for other purposes than those specified in the user manual.

If there is an odor of burning or excessive heat from the product while in use, remove the battery and immediately contact the customer service center.

Be sure to use the product in a bright place to protect your eyesight, as looking into the LCD screen in a dark place for a long period of time may hurt your eyesight.

Back up stored data. It is recommended that you back up important data stored on his product regularly. The seller and manufacturer do not take any responsibility for data loss, especially when the product is being serviced.

Do not place the product near magnets or magnetic fields. It may cause failure of the product.

1. Important Notices: Proper Usage and Battery Care

Do not handle the product with wet hands as it may cause malfunction of the product and, especially, if the AC adapter is handled with wet hands, there is a risk of electrocution.

Use the LCD screen with a stylus pen provided by the manufacturer or a non pointed tool. Otherwise, the LCD may be damaged.

The film attached on the LCD is a film used to protect the LCD during shipping. If the product is used with the film on, poor touch screen function may occur. Be sure to use the product after replacing the film with the LCD protection film separately provided.

When using USB cable, adapter and snap-on, be careful with the direction of connector insertion. If it is inserted incorrectly it may damage the PDA or PC. Ensure the cable used is in good condition not having bent pins or damaged areas along the cord.

The product may not operate properly in extreme cold or heat. The proper operating temperature is between -10° C ~ 50°C. Be especially careful to avoid storing the product in a place with extreme temperatures, or moist areas. This may cause external change or product damage. Store in a cool dry place.

In following cases, warranty service will not be provided and repairs may be impossible:

- If the product has been disassembled or remodeled by the user;
- If the product has fallen into the water or stored in a moist place for a long period of time;
- If the product has been dropped from a high place or received excessive external shock.

Charge the battery fully for at least 30 minutes or longer before using the product for the first time. The product may not turn on before the battery is charged.

1. Import Notices: Battery Care / Other Instructions

If batteries not provided by the manufacturer are used, there is a risk of product failure or explosion. Keep the battery away from children or pets to prevent them from biting or sucking on the battery. Be careful to prevent metal objects from contacting the charging terminals of the battery as it may cause fire.

Turn off the power of the product in places where use of the product is prohibited. Especially where radio wave interference may occur such as in an airplane or in a hospital. Electromagnetic waves generated by the product not harmful to a human body may cause problems for electronic flight equipment or medical instruments

Do not paint or attach stickers to the product, especially if those paints or stickers contain metal ingredients. It may cause buttons not to operate or reception problems.

Duplicating an Electric Serial Number (ESN) of a mobile phone is illegal and the person who has committed or used the duplication may be sentenced to imprisonment of 3 years or shorter or penalty of 20 million Won or less in accordance with Radio Wave Law. Also, the person who has illegally provided or been provided with an ESN may be sentenced to imprisonment of 3 years or shorter or penalty of 10 million Won or less, and the person who has had in possession or used an ESN for the purpose of duplication may be sentenced to imprisonment of 3 years or shorter or penalty of 50 million Won or less. Accordingly, you should not ever duplicate or illegally use an ESN.

Do not point the barcode laser at or near the eyes or face of any human or animal. In extreme cases it may cause blindness..

| · + ···· | It is used to reset the product. But, time and date should be reset. |

2. Before Using

2.3 Button Layout and Physical Features

Power connection and charging

Connect the snap-on to the input socket at the bottom of the device. (In a cradle, connect the device to the cradle.)

2

Connect the adapter to the power connector at the right side of the device (In a cradle, connect the adapter to the back of the cradle.)

While charging, the red LED at the right top of the product will be on.

When charging is completed, the light will turn green.

Battery charging and using time

| | Standard BTRY | Large BTRY | Notice |
|--------------|---------------|------------|--|
| Charge Time | | | - The Charging time is calculated |
| Talk Time | | | based on using the proper charging cradle. |
| Standby Time | | | -Charge, talk and standby time may |
| | | | vary depending on user |

-Battery life will vary by user service type, environment, battery age.

- -If user does not use the device, the battery will lose charge. The battery is a consumable product.
- -If battery usage time decreases below standard, a new battery should be purchased.
- PDA warranty is 1 year. Battery warranty is 6 months

2.4 Connecting to a PC

Installing Active Sync

Agree with the license of Microsoft ActiveSync. Select 'Agree' and press 'Next'.

Check the free disk space on the drive to be used for installation and change the installation location by pressing 'Change' or press 'Next' if you want to install it in the default location.

In order to connect (synchronize) PDA with a PC, Microsoft program called ActiveSync is required. For installation, execute 'Install Program' and press 'Next'. At this time the PDA and PC should not be connected.

Enter 'User Name' and 'Organization' and press 'Next'.

6

2. Before Using

2.4 Connecting to a PC

Installing Active Sync

ActiveSync is now ready to install. Execute installation by pressing 'install'.

.

Installation of ActiveSync will be performed. It may take several minutes depending on the environment of the user PC.

Once installation of ActiveSync has been completed finish installation by pressing 'Finish'.

Now, connect the PDA with the PC using the cord and adapter provided.

2. Before Using

2.4 Connecting to a PC

Installing Active Sync

9

'Found New Hardware' starts after connecting. The installation of driver automatically begin.

10

Once installation of ActiveSync has been completed, synchronization will start.

.

Notice

- Install Active Sync and Driver as above when OS is Windows 2000, or Windows XP.
- Execute Windows Mobile Device Center without installing Active Sync and Driver when the OS is Windows Vista or Windows 7.
- The latest version of ActiveSync can be downloaded on Microsoft homepage.

Locking Function

- The screen will be shown like the picture (right) after touching 'Device Unlocked' on standby screen.

- The locking can be lifted by sliding the 'side' key.

- The PIN number box is displayed after sliding it, only if the PIN number has been set before.

Status Window

Pop-up menu will be shown when the status bar on the above black line is touched. User can click the images of Expansion, Sync, Sound, Battery and Alarm on the pop-up menu.

Wireless Manager

| All | | |
|-----------|-----|---|
| Bluetooth | | |

| Wireless Manager | 100K | 0 % |
| Task Manager | 92 NK | q 0% |
| End Task 🔤 | Menu | $) \otimes$ |

Task Manager shows current running APP. When an unwanted program or some programs are finished, you can manage the memory efficiently using Task Manager.

5.1 Applications

DATA Communication

Wireless Manager II 10:33

- Click WI-FI icon on the bottom right-corner of the screen.
- Touch 'WLAN Insert' like the left picture
- Then, click the menu 'Phone off' .
- PHONE supports phone function, 3G DATA -WI-FI can be on/off.

Internet Explorer

You can use Internet through Internet Explorer after connecting to WLAN and can see various internet contents like searching and mails.

5. Others

5.1 Applications

Bluetooth

Activate Bluetooth.

'setting' -> 'Bluetooth'

Touch 'Add new device' then you can search peripheral Bluetooth devices.

After finding a device, connect the device you are going to use.

6.1 Problem Solving

Problem solving

- 1. Check followings first when a problem occurs while using the product. If the problem is still not solved, first contact the dealer you bought from.
- In case of the delayed response, you can reach the manufacturer's website. Or DOTel's Customer Service Phone no.: +82-2-850-3243 Email : suyeon@dotel.co.kr

6.1 Problem Solving

Solution

- 1. This product is designed to properly radiate the heat generated inside the product through the case.
- 2. If the product is used for a long period of time or the adapter is connected for long, you may feel warmth from the case. Please use the product at ease as there is no problem with the product.

Check if the phone is connected or in hold state

If the connection is frequently cut and instable, please connect the product not to a separate hub but directly to the USB terminal of the PC.

6.2 Guidance on Customer Support and Service

1. Contacting the customer service center

1) Web site

- Before contacting customer support you may wish to try to find troubleshooting help at our website: <u>www.dotel.co.kr</u>.

- Click 'Contact' on the DOT website

- Fill in the form and click the 'submit' button.
- 2) Content of service

Free or charged repair of all the models of PDA and sale of various accessories.

2. Before asking for repair

- 1) Be sure to check the contents of 'Problem solving' in the previous pages before asking for repair.
- 2) Do not forget to backup important data contained in the product in advance. Data may be deleted during repair due to memory formatting, etc. The Company does not take any responsibility for the data lost during servicing.
- 3) Be sure to write your telephone number and address. If there is no contact information for the customer, a problem may occur in the process, and DOTel will not be able to consult with you.

3. Quality Assurance

- 1) The warranty of the product is on the overleaf of the manual.
- 2) The products manufactured and sold by the Company are products shipped after going through strict quality control and inspection of DOTel Co., Ltd.

6.2 Guidance on customer support and service

- 3) Warranty period
- Main body: 1 year
- Accessories (consumables): 6 months (battery and items excluding the main body)
- Mandatory period to keep spare parts in stock: 3 years from the date of releasing the relevant model
- 4) Content of warranty

When a problem occurs during normal use within the warranty period, the customer service center of the dealer shall provide legitimate material and immaterial service in accordance with Consumer Damage Compensation Regulation by item. In the following cases, repair may be inevitably impossible even within the warranty period and at a cost.

- a. if the product is out of order due to shock or water-logging by fault of the consumer;
- b. if the product has been disassembled or remodeled;
- c. if the product is out of order due to natural disaster such as fire, earthquake or flood; or
- d. if the product has been repaired by persons other than the designated service staff of DOTel. Co., Ltd., or in a non-designated service location

Individual matters not specified in this article shall be reviewed from the aspect of the internal regulation of DOTel Co., Ltd. for service and customer support but aiming at convenience of the final consumer

5) Warranty area: Korea

4. Expense for repair

- 1) If the product has failed due to defect of the product itself within the warranty period, it will be repaired free of charge in accordance with the warranty standard of the Company and Consumer Damage Compensation Regulation
- 2) The repair expense shall be decided in accordance with the repair price for each item in the internal regulation of the Company.
- 3) Even within the warranty period, if it falls under article 3-4 above, a certain amount of repair expense will be charged. Please understand as repair may not be possible in some cases.

-Hardware manufacturer: DOTel Co., Ltd. www.dotel.co.kr
